Regles de construction

Prenez des points uniformement repartis sur un cercle.

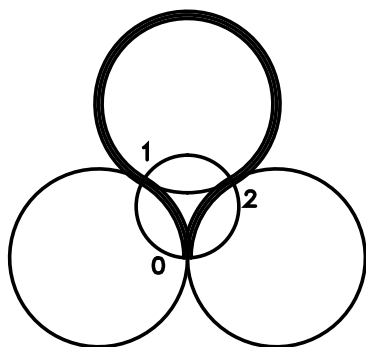

Reliez les dans l'ordre donne en utilisant un arc du cercle coupant perpendiculairement le cercle original.

La courbe obtenue doit etre lisse et fermee.

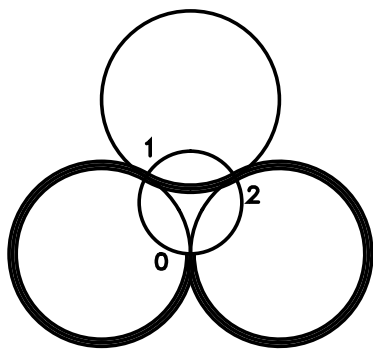

Les cercles de rayon infini sont dessines comme des lignes.

Pour les nombres pairs, commencez par l'arc interieur.

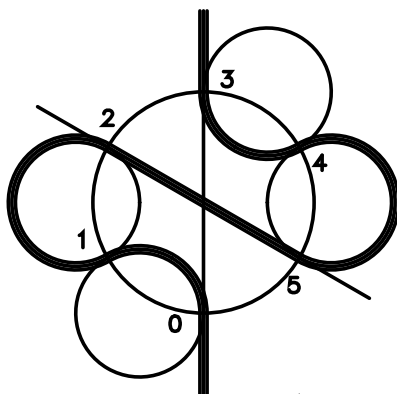

Pour les nombres impairs, on admet une singularite non lisse. le sens de la courbe est alors determine par le signe + ou -, indiquant si le premier arc est l'arc interieur ou exterieur

012543

01245376

0123

Construction Rules

Take points uniformly distributed on a circle.

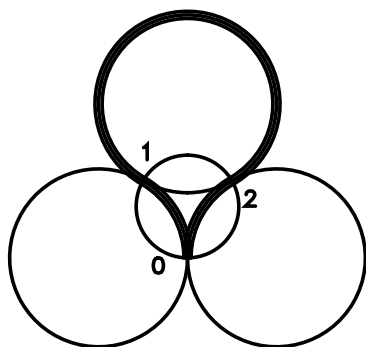

Connect them in the given order using an arc of the circle that intersects the original circle perpendicularly.

The resulting curve must be smooth and closed.

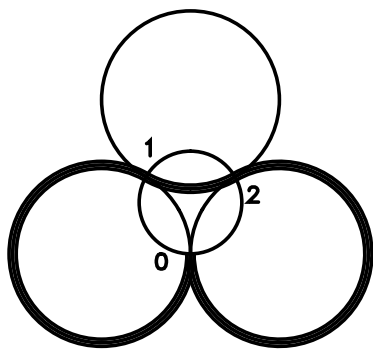

Circles with infinite radius are drawn as lines.

For even numbers start with the inner arc.

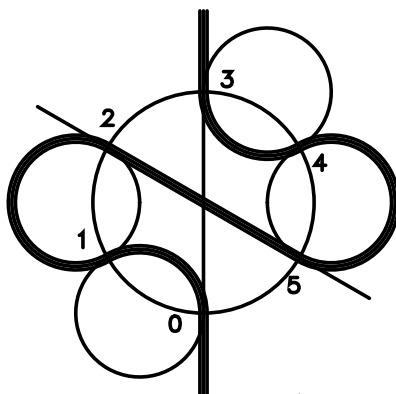

For odd numbers, a non-smooth singularity is allowed. The direction of the curve is then determined by the sign + or -, indicating whether the first arc is the inner or outer arc.
